

## Cuglacrete Hechtprimer polymeer

- CUGLACRETE HECHTPRIMER POLYMEER is a fine polymer dispersion in water based on an acrylic resin.
- CUGLACRETE HECHTPRIMER POLYMEER is an excellent bonding primer for CUGLACRETE Concrete repair products

### Directions for use

---

#### Pre-treatment

The surface onto which CUGLACRETE HECHTPRIMER POLYMEER has to be applied needs to be clean. The cement skin coating should be removed.

#### Application as primer

A very porous surface can be pre-treated with a mixture of 1 part CUGLACRETE HECHTPRIMER POLYMEER and 1 part water. This mixture can be applied with a brush.

#### Application as adhesive layer

A hard and non-porous surface can be pre-treated with a mixture of 2 parts CUGLACRETE HECHTPRIMER POLYMEER and 1 part cement. This mixture can be applied with a brush.

#### Storage and shelf life

If stored in a dry place it has a shelf life of up to 12 months after production date, as stated on the packaging.

#### Packaging

In cans of 10 litres.

### Health and environmental aspects

---

Cugla advises:

- To wear appropriate personal protective equipment (PPE).
- To avoid contact with eyes and skin.
- In case of contact with the eyes, to rinse immediately with plenty of water and seek medical advice.
- In case of swallowing the product immediately contact a doctor and show the package or the safety data sheet.

Safety data sheets, SDS, are available via our website [www.cugla.com](http://www.cugla.com).
